Shweta Yuvaraj Patil

Kolhapur, Maharashtra | Email | +91 9922787891 | LinkedIn | GitHub

Summary

B.Tech Computer Science Engineering graduate with hands-on experience building web applications and working across frontend, backend, and database technologies. Experienced with React.js, Python, Flask, JavaScript, and SQL databases, with a focus on developing practical applications and solving technical problems. Seeking an opportunity to contribute to real-world software projects while expanding my development skills.

Skills

Programming Languages	C, C++, Java, Python, JavaScript
Frontend	HTML5, Tailwind CSS, CSS3, React.js
Backend	Python Flask, REST APIs, Authentication
Database Management	SQLite, MySQL, Postgres
Tools and Platforms	Git, GitHub, VS Code, Android Studio, Vercel, Render

Education

Dr. D. Y. Patil College of Engineering, B.Tech in Computer Science and Engineering, Kolhapur — *Nov 2022 - May 2026*

- GPA: 8.05/10

Dudhsakhar Vidyaniketan College, 12th (Science), Bidri — *Jun 2021 - May 2022*

- Percentage: 71.50

Raghunath New English School Kasaba Walve, 10th — *Jun 2019 - May 2020*

- Percentage: 94.40

Work Experience

Python Developer Intern (Anvistar ITS Pvt. Ltd.) — *Jun 2025 - Jul 2025*

- Developed a CRM web application using Django with workflows for customer tracking, lead management, and record updates.
- Implemented authentication, form handling, and database-backed CRUD operations for managing customer and lead information.
- Built responsive web interfaces using HTML5 and CSS3 and integrated them with Django application workflows.
- Connected Django with MySQL through the XAMPP environment to support persistent application data and database operations.
- Debugged and tested application workflows to identify issues and improve reliability and consistency of data handling.
- Collaborated on improving UI/UX and optimizing application workflow

Technologies: Python, Django, HTML5, CSS3, XAMPP, MySQL

Projects

Personal Portfolio Website — *Jun 2026 - Jun 2026*

- Developed a responsive portfolio website to showcase projects, technical skills, certifications, and academic achievements.
- Designed and implemented a modern user interface using React.js and Tailwind CSS with smooth animations and interactive components.
- Integrated project galleries, resume viewing functionality, and social media links to improve accessibility and professional presentation.

Technologies: React.js, Tailwind CSS, Flask, Vercel

Live Demo - Check it out

Smart Task Manager — *Feb 2026 - Feb 2026*

- Built a task management web application using React for the interactive interface, Flask for backend communication, and PostgreSQL for persistent data storage.

- Implemented task creation, completion, and deletion workflows while keeping application state synchronized with UI updates.
- Structured the frontend using reusable React components to separate task-related UI and interaction logic.
- Integrated the frontend with backend APIs to exchange task data between the React client and Flask application.
- Designed a responsive interface for managing tasks across different screen sizes.

Technologies: React.js, CSS, Flask, Postgres, Vercel

Live Demo - Check it out

Personal Finance Tracker *Dec 2025 - Jan 2026*

- Built a full-stack finance tracking application using Flask, PostgreSQL, JavaScript, HTML5, and Tailwind CSS.
- Implemented authentication, session handling, transaction management, and budget tracking with persistent database storage.
- Connected frontend interfaces with backend functionality to create, retrieve, and update financial records through application workflows.
- Developed dynamic dashboard and reporting interfaces to present stored financial data to users.
- Deployed the application using Render and configured the web application with a PostgreSQL-backed backend.

Technologies: HTML5, Tailwind CSS, JS, Flask, Postgres, Render

Live Demo - Check it out

SchedulEasy *Mar 2025 - May 2025*

- Developed an Android application to automatically generate and manage academic timetables.
- Implemented SQLite database to store timetable information.
- Added functionality to generate and share timetable as PDF.
- Built user interface using XML layouts in Android Studio.

Technologies: Java, XML, SQLite

GitHub - Check code here

Certifications

- Python Programming Cerification - (*HackerRank*, 2025)
- AWS Cloud Fundamentals Certification - *(AWS Skill Builder,* 2025*)*
- Elements of AI Certificate - *(MinnaLearn, 2025)*
- NPTEL - Programming in Java *(SWAYAM / IIT 2024)*
